**Dr. Greene's NERVURA**  
BLOOD NERVE REMEDY.

Weak, Nervous, Irritable, Blue, Discouraged.

You are irritable, nervous, dependent, do not eat or sleep well, wake tired, have headaches, weakness, debility and exhaustion. You need Dr. Greene's Nervura, blood and nerve remedy. This wonderful health-giver restores health, strength and renewed vigor and energy to the entire body.

Mr. John McLaughlin, Lawrence, Mass., says: "I was greatly troubled with my stomach, or years ago. I was frequently annoyed by sharp piercing headaches, and had a bad throat. I had Dr. Greene's Nervura blood and nerve remedy recommended to me by a friend, and used it a trial. Before the second bottle was gone my stomach began to be all right and now I feel well and can take food which I have not dared to do for years. My wife has suffered a great deal from headache and other annoying difficulties. I turned her to Dr. Greene's Nervura and she did so. She regards it as a good medicine and feels that it helps her."

Dr. Greene, 81 Temple Pl., Boston, Mass., cordially invites all who are out of health to consult or write to him about their cases, and his great skill, counsel and advice are at your service free of charge. Do not delay but write at once.

## TEA TABLE TALK.

Here is a sample of the delicious stuff which the London correspondents send over to our American papers:

"The Prince of Wales has created considerable comment lately by eating at restaurants, quite contrary to his precedent. During a recent swell affair at Claridge's the Prince and his party sat near a table reserved for Mr. and Mrs. Bradley-Martin."

This is indeed choice information. Eating at restaurants has long been quite proper over here, and if the Prince has just adopted the custom, it is nothing to call for special comment. We care not whether he munches pretzels at a Whitechapel luncheon or eats a frankfurter in a night lunch cart.

And that observation regarding the Prince's proximity to the Bradley-Martin table is sillier than the other. Who cares anything now about the B.M.'s anyway, on this side of the pond? Since they blew in a fortune on that idiotic ball in New York so Mrs. B.M. might show off her thousand and one paste diamonds, we haven't given 'em a thought. Nor should we care a roasted chestnut if the Prince of Wales chanced to use the same butter dish as the B.M.'s. This rot about London "society" is too often sickening.

Under the caption "Is the Church a Variety Show?" a correspondent of the New York Sun cites the following illustrations of what is sidetracking spirituality in so many sanctuaries:

PLYMOUTH CONGREGATIONAL—Ladies' society, foreign missionary department, 2:30 p. m., 7:30 p. m., Pancake social; oration on "Pancakes," quartette about "Pancakes," Sympies and Pancakes.

PARK BAPTIST—Midweek prayer meeting Thursday evening, Friday evening, a Hard Times social. "All persons must wear close suitable for the occasion." Fried chicken, baking powder and sherbet for 15 cents.

FIRST PRESBYTERIAN.—Tuesday, 6 to 9 p. m., the caterers who have been at the past week will serve supper. Muffins, ham, pickles, coffee, 10 cents. Friday evening, Junior Christian Endeavor will give a concert.—Ice cream and fun for all. Don't forget chicken pie supper.

PRILGIRN CONGREGATIONAL—The young ladies will give a soap-bubble social Wednesday evening. Cakes of soap, pleasant entertainment, songs, recitations, in exchange for a silver dime. Prize awaits the one who blows the largest soap-bubble! Poverty social. Kum to the poverty social tonight at the Congregational chapel. Admission only 10 cents. You will be fined if you wear good clothes or jewelry. There won't be no poverty about the supper. Prizes for gent and lady what dresses most suitable for the occasion. Kum and have a good time!

Go to the First Baptist church tonight to hear John DeWitt Miller tell about "Uses of Ugliness." You'll kick yourself twice around the capital if you miss that side-splitting lecture tonight. (Chickenpie supper tonight at First Baptist church.)

PRESBYTERIAN CHURCH—The taking comic cantata, Cox and Box, will be given at the Franklin street Presbyterian church. If you hear "Cox and Box" next week, take out an accident policy on your buttons. It's funny. Franklin street church. The last chance to laugh at "Cox and Box" for 10 cents. If you never ate persimmons or saw a 'pessum, you can do both at Franklin street church tomorrow night! Beautiful booths, delicious supper and heaps of fun! Don't forget.

An "expert" yachting critic, (one of that class who made such ridiculous prophecies regarding the outcome of the cup races) now blossoms forth with a detailed explanation of why the Shamrock got beaten. He says that "her extreme beam was placed too far aft," and "she had an excess of headsail." The most sensible explanation is that the Shamrock got it in the neck because she wasn't good enough to beat a Yankee boat, handled by a Yankee crew. This is good enough for the American public, and scientific dissertations by alleged yachting "expert" critics, who know nothing but nautical terms, are quite superfluous.

The Newburyport police are waging a determined warfare against expectorators. Seven young men were brought into the police court there Monday morning and tried on the charge of violating the rule of the board of health relative to spitting on the City hall floor. Six of them were fined one dol-

lar each. The officers are determined to break up this unhealthy and disgusting practice of spitting in public places.

Admiral Dewey is almost ready to begin housekeeping in his Washington residence. He will take with him to his new home the housekeeper, chambermaid and man servant who have served him for years at his hotel in the Capital city, and he has engaged for cook the daughter of his old cook, trained in her mother's ways.

## THE INTERVIEWER.

"Styles change in sporting goods just as they do in other things and it is interesting to note how completely the fad of one period is superseded by that of a bygone generation," said a hardware dealer, yesterday. "The old becomes new and the new old. Take guns, for instance. Fifteen or twenty years ago the pistol grip and the Damascus barrel were supposed to figure in the highest grade guns as a sine qua non. The plain stock and the de-carbonized barrel were found only in the gun of medium and low grade."

"The Damascus is a handsome barrel and the pistol grip certainly does add beauty to a stock, but, not withstanding, both seem in a large measure to be passing out. We now know that the plain blued de-carbonized or Bessemer steel barrel is the strongest thing made. It is the safest barrel made and it will stand the grief. Many sportsmen consider, as regards the gun stock, that the pistol grip is more of a hindrance than a help. Just how may not be easy to explain, but the fact remains that many of the crack-a-jacks are using the plain stock."

"The tendency lately toward straight stocks—those having less 'drop'—is very marked. Not a great many years ago it was quite the thing for a man to be measured for a gun with almost the same care as that of being measured for a suit of clothes. The 'drop' had to be just so. Now, it is claimed, that a man should have a stock straight enough to compel him to lay his face well down. In plain barrel and straight unfluted stock we are now not far removed from two prominent characteristics of the ancient fowling piece of our forefathers. Of course not all sportsmen accept the changes, many still holding to the older order of things. But I think the popular tendency is as I have indicated."

## BEWARE OF OINTMENTS FOR CATARRH THAT CONTAIN MERCURY.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by Druggists, price 75c. per bottle.

## THOSE NEW HATS.

An observant young man, in speaking of the new style of hats, notices that when a young lady turns on the street, the unwary individual who is too near her is likely to get a feather in his eye. And he draws this moral: "Don't get too close to her. If that plan is followed, the feathers will soon grow shorter."

## LIKE FINDING MONEY.

The use of the Endless Chain Starch Book in the purchase of "Red Cross" and "Hubinger's Best" starch, makes it just like finding money. Why, for only 5c you are enabled to get one large 10c package of "Red Cross" starch, one large 10c package of "Hubinger's Best" starch, with the premiums, two Shakespear panels, printed in twelve beautiful colors, or one Twentieth Century Girl Calendar, embossed in gold. Ask your grocer for this starch and obtain the beautiful Christmas presents free.

TO CURE A COLD IN ONE DAY. Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box. 25c.

"A dose in time saves lives." Dr. Wood's Norway Pine Syrup; nature's remedy for coughs, colds pulmonary diseases of every sort.

## THEATRICAL HAPPENINGS.

### TONIGHT.

George H. Broadhurst's success. What Happened to Jones, which will be the attraction at Music hall tonight, is a purely farcical comedy, that depends entirely upon its dialogue and situations for its fun. The story comprehends itself through three acts, and works out admirably for everyone. The company includes such standard artists as John Alton, H. G. Hockey, H. W. Montgomery, Louis Reinhart, Joseph Meeker, Charles Charters, Charles Greene, Florence Marion, Lillian Young, Olive McConnell, Ethel Herslet, Marie Haynes and Maud Allison.

### AN ERA OF REPertoire COMPANIES.

Stock and repertoire companies have won their places by the variety of their performances and by popular prices. A change of bill every night, or twice a week, has drawn packed houses in many cities and towns playgoers patronize these companies every night, because the performances are always interesting and given at low prices. Relatively speaking stock and repertoire companies play to larger receipts nightly than the average combinations that charge 75 cents to \$1 for the best seats. In many places they do more business than "gild-edged" or \$1.50 attractions. Many persons prefer a variety of plays at low prices every week to one gild-edged company. This is one of the secrets of success of stock and repertoire companies. A careful observer knows also that stock and repertoire companies, with perhaps a few exceptions, stay on the road from the beginning to the end of the season, while many regular combinations, including gild-edged organizations, are obliged to disband prematurely owing to bad business thereby throwing out and on to the "Rialto," hundreds of good actors and actresses with a variety of hard luck stories.

### THE HEART OF MARYLAND COMING.

Should David Belasco ever write another play, his latest and today the most perfect in its dramatic and scenic conditions, The Heart of Maryland, would make his name memorable in the calendar of America's greatest and most successful authors. During its first performance on our stage it aroused an enthusiasm seldom witnessed in an audience of the local theatre. The beauty and realism of its scenic effects, the romance and absorbingly interesting nature of its story of love and war, and the heroism of Maryland Calvert and her daring struggle in the belfry scene all will be repeated in a return and farewell presentation of the play at Music hall next Thursday night.

### SUCCESSFUL CITY SPORTS.

One of the happiest men in ten counties on Saturday night was Phil Sheridan, manager of the "City Sports" show which closed a tremendously successful engagement at the Park theatre. The "Standing Room Only" card was put out at 8:30 o'clock and the theatre was black with people, which goes to show that a burlesque show is popular and remunerative in Manchester only when it is worthy, bright and clean. Contrary to what might be expected the "Sports" will not be back again this season. Their time is booked solidly up to next spring, and they are now westward bound.—Manchester Mirror.

### A CLEVER CLIMAX.

It needs something in the nature of "The Lobster" at the finish to suit the Augusta audiences, if Saturday evening can be judged as a sample of the whole. The climax of the play was reached so suddenly and at such an unexpected moment it took the "rushers" by surprise and they had not time to begin to scramble for the door before the play was over, thereby spoiling the climax and annoying all the other people in the hall, as is usually the case.—Kennebec Journal.

### THEATRICAL NOTES.

What Happened to Jones holds Music hall tonight.

The Heart of Maryland comes Thursday night.

A benefit performance for the Old Ladies' Home is being arranged.

The Manchester Mirror estimates that out of the 60,000 people in that city

only 500 are regular theatre goers, and only 5,000 attend the theatre.

Paderewski comes to this country in December.

The Span of Life is booking New Hampshire dates in November.

A. C. Sanders of Darry is in the east of The Dairy Farm, now running in New York.

The box office hours at Music hall are from 7:30 to 9 a. m., 12 to 2, 5 to 6 and 7 to 8 p. m.

The company which is to appear at Music hall tonight is one of the strongest on the road.

The steamer Columbia will run to Newcastle tonight at the close of the performance at Music hall.

Boston attractions this week: Park, Sag Harbor, Boston. The Sorrows of Satan; Tremont, Three Little Lambs; Castle Square, Too Much Johnson; Hollis, Mr. and Mrs. Kendal; Museum, At the White Horse Tavern; Keith's, vandeville; Grand Opera house, The Sunshine of Paradise Alley.

### CITY BRIEFS.

An Old Home week is being urged in Maine.

Thanksgiving day is only about five weeks off.

The Jeffries Sharkey fight is creating considerable interest in this city.

If you want to thoroughly enjoy yourself go to Music hall tonight.

Many bicyclists are now seen about the streets of the city with overcoats on.

The football match between Phillips Exeter and Phillips Andover occurs Nov. 11.

This is a new one: "Why is the Shamrock like a glass of water?" "She makes a good chaser."

Business was decidedly dull along the water front this morning. There were but few arrivals and departures.

Some of the churches have already commenced to prepare for the musical part of their Christmas entertainments.

The Newcastle boulevard built by Maj. David Urch is one of the finest pieces of work ever constructed in the state.

This farmer's almanac has some pure and bracing air scheduled for this week while during the latter part there are rain clouds visible.

Many local beach gunners are preparing to start out for sea birds this week. Hampton and York are said to be the best grounds for game.

The rabbit hunters are about to start out. The leaves have fairly well fallen from the trees and there is promise of some good sport this fall.

Nashua like Concord, is thinking of the necessity for a building inspector. Portsmouth hasn't yet waked up to the realization that such an official would be a good thing here.

The chestnut trees hereabouts are reported to have been stripped pretty bare, though there is a Portsmouth lawyer who says that where trespass warnings are up he finds pretty good pickings still.

Now that the game season has opened in earnest, the sport of flying homing pigeons has come to a close, the owners of valuable birds being unwilling to send their birds on long journeys while the sportsmen are in the field.

Sailors are scarce in all of the Atlantic sea ports and the probability is that wages, already high, will take another advance. Shipping masters are at a loss to account for the scarcity at this time but presume that the number of vessels waiting for cargoes has something to do with it.

### AT THE NAVY YARD.

Several new stretchers are being built to be used in case of accident.

The new lunch room on the yard will probably be ready some time during the winter.

Captain James Sylvester of launch 132 is passing ten days in Maine on a gunning trip.

Two boats were shipped to the Naval academy at Annapolis this morning.

Much interest was taken by the officers of the yard in the trial of the Dahlgren, which will come here a little later to be fitted out.

Hon. Amos L. Allen, candidate to succeed Mr. Reed in Congress, and Congressman Charles E. Littlefield, successor to Hon. Nelson Dingley, were two distinguished Maine visitors to the navy yard today.

## SUSPICIOUS OF FILIPINO PEACE EMISSARIES.

A Boat's Crew From the Gunboat Mariveles Captured and Shot by the Filipinos—An Unsuccessful Attempt to Rescue Them—Two Transports Arrive at Manila.

Washington, D. C., Oct. 23.—The Secretary of the Navy has received the following report from Rear Admiral Watson, dated at Manila:

"The insurgents surprised a boat's crew of four men from the gunboat Mariveles, who, under a white flag, were landing the non-combatants from a captured proa at Sicoon Island. William Jaraacha, boatswain's mate, first class, was captured. An armed crew of ten attempted a rescue unsuccessfully. Sidney N. Hoar, landman, was fatally wounded; Frederick Anderson, apprentice, first class, severely wounded in the groin; Nicholas Farre, coxswain, wounded in the left leg, slight. The concord and Mariveles will punish if possible."

General Otis has informed the War Department of the arrival at Manila of the transports Sherman and Elder. The Sherman carried the thirty-third volunteers and some recruits, and the Elder had on board nineteen officers and 488 enlisted men. There were no casualties on either ship.

Colonel Bird, in charge of the transport service of the army, is back from New York, where he made a careful inspection of the three crack transports, Thomas, Meade and Logan, which are nearing completion.

The Thomas will be ready to sail for the Philippines on November 6, carrying the Forty-seventh volunteer infantry. The Meade will follow on November 15 with the Forty-third volunteer infantry. The Logan will sail on the 20th of November with the Forty-first volunteer infantry.

### No Picnic For Peace Men.

Manila, Oct. 23.—It is believed that when the Filipino Commissioners, on whose behalf permission has been asked to visit General Otis to discuss peace terms and other matters, are admitted to the American lines, they will not be brought to Manila. It is expected that General MacArthur will be empowered to meet them. If he is authorized to receive them, he will do so in the status of individuals coming from Aguinaldo, and will decline to receive any official communication from the so-called peace commissioners. It is reported that the Filipinos propose to ask for an exchange of sick Spaniards in their hands for Filipino prisoners.

### Transport Senator Arrives.

San Francisco, Cal., Oct. 23.—The Fifty-first Regiment of Iowa Volunteers, numbering 734 men and 40 officers, under the command of Col. J. C. Taper, has arrived here from Manila on the transport Senator. There was no sickness aboard. Edward W. Kissick, Company F, of Oklahoma, Iowa, died at Nagasaki of dysentery. Three days out from Nagasaki Edwin Statler, Company M, and Homer A. Road, Company A, were injured by the breaking of the after sail which fell on them. Statler's leg was broken and Road sustained a fracture of the skull. Both men are doing well.

The Senator was caught in the tail of the typhoon encountered by the steamer Empress of Japan. She was tossed in a lively manner for several hours, but suffered no severe damage. So serious did the situation seem to the officers of the steamer at one time that all the passengers were ordered below, and the hatches were battered down.

### Adj. Gen. Byers and 300 Citizens of Iowa met the Senator at the Golden Gate in a number of tugs. They received a royal reception from the volunteers. The regiment will be taken at the transport at once.

### Gunboat Sails From Shanghai.

Washington, Oct. 23.—The old light-draft iron gunboat Monocacy has sailed from Shanghai for Chin Kiang, China. She is one of the vessels suggested by Admiral Dewey as available for service in the Philippines. There are doubts at the Navy Department as to the Monocacy's seaworthiness, and she will be docked at Hong Kong to ascertain her condition.

### Raised Over \$10,000.

New York, Oct. 23.—Far above the ordinary and commonplace was the method adopted by the academy of music to swell the fund for a monument to the great Irish leader, Charles Stewart Parnell, and to save his home in the Vale of Avon, from being sold and his brother, sister and other relatives from being evicted. Over \$10,000 was raised at the meeting.

### Horseman Young For Senator.

Lexington, Ky., Oct. 23.—Milton Young, proprietor of the McGrathiana farm, was made a candidate for the State Senate by the Republicans in convention here. Col. Young has a strong following, and is almost certain to defeat the Gobel Democratic candidate. He has wagered \$5,000 that Taylor will defeat Gobel.

### Ingalls Had to Resign.

Leavenworth, Kan., Oct. 23.—Lieutenant Ralph Ingalls of Company C, Forty-fourth volunteers, has resigned his commission on account of defective hearing. Ingalls is a son of former Senator John J. Ingalls, and was an officer in a Missouri regiment in the Spanish War.

### Will Ask to Have Lawton Promoted.

Lafayette, Ind., Oct. 23.—Petitions will be put in circulation in every county throughout the State appealing to the Legislature to promote Gen. H. W. Lawton to fill the vacancy occasioned by the retirement of Gen. Shafter.

## PROSPECTS IN LUZON.

### Between Battles Volunteers Found Some Rich Ore.

Deadwood, S. D., Oct. 23.—Some evidence of the richness of the Philippine islands in the precious metals have been shown in the Black Hills towns since the return of the three volunteer companies which served a year in the islands. The Black Hills boys, many of them, have had practical experience in mining for gold and silver ores, and they have been careful in the Philippines for ore deposits.

Captain Paul McClelland of Company I brought back a piece of bamboo, corked at each end, which contains a rich piece of decomposed silver ore. Captain McClelland formed the acquaintance of an old native, who said this rich specimen came from a ledge 100 feet wide.

The sample of ore is nearly half silver. The ledge, which lies miles from Manila. Many of the natives have learned something of the value of the ore veins of the country. A number of pieces of rich gold quartz ore were given to the boys by the natives. Chunks of gold ore have been exhibited in Deadwood which bristled with gold threads, flakes and nuggets, and it would be taken for Black Hills ore by the most experienced mining man.

Many of the Black Hills boys have remained in the Philippines for the purpose of being on the ground ready for the gold fields as soon as order is restored. Several outfits have been organized which are in the gold fields around Manila. Some of the soldiers save small bottles of placer gold, which they panned out of the creeks. There seem to be large quantities of black sand which is full of bright yellow gold.

### CALLS IT PURE MOONSHINE.

#### London Review Comments on The Alaskan Boundary Question.

London, Oct. 23.—The Review, commenting upon the Alaska modus vivendi, says:

"The talk of Anglo-American good will, which has been indulged in even more freely than usual during the past week, is mere moonshine so long as the Alaskan boundary question remains unsettled. American obstinacy has resulted in a temporary arrangement which Sir Louis Davies, the Canadian Minister of Fisheries and Marine, says cannot be dignified by the name of modus vivendi. Such an arrangement in itself is a menace. It may break down at any moment, and what would happen then? So far as diplomacy is concerned we are at an absolute deadlock."

Despite the foregoing, there is no doubt that the Anglo-American alliance has received much impetus by the action of the United States government in undertaking to look out for British interests in the Transvaal, and, although America's refusal to perform that function would have raised a howl, it does not deter the general feeling from being one of satisfaction and gratefulness to the United States.

### The Goulds Are Well Pleased.

Kansas City, Mo., Oct. 23.—The special train bearing Miss Helen M. Gould, Frank J. Gould and other officials of the Missouri Pacific system arrived from Ossawatimie, Kan. "I have within mind many improvements for the Missouri Pacific system," said Mr. Gould to a reporter. "We are well pleased with what we have seen." The party remained in Kansas City only between trains, and will return in a few days to St. Louis by way of Omaha.

### Fruit Scheme Fails in Jamaica.

Kingston, N. Y., Oct. 23.—The Archbishop of Jamaica, who has returned here from London, brings positive information of the complete failure of the projected fruit company designed to open the direct English trade with this island. On this project was based Jamaica's indifference to the campaign of the American growers against the ratification of the West Indian Reciprocity Treaty.

### Decorated by Japan's Emperor.

New Haven, Conn., Oct. 23.—Prof. George Trumbull Ladd, head of the department of mental philosophy at Yale, has notified the Yale University authorities that the Emperor of Japan has conferred upon him the decoration of the Rising Sun. He has been invited to address National Japanese University students. He has been in Japan four months on his mission to the Japanese universities.

### Death of Robert Porter.

Bridgeport, N. J., Oct. 23.—Robert Porter, of West Commerce street, was taken ill with congestion of the lungs, and in less than half an hour was dead. He was prominent for years in the publishing world, and was highly successful, being for years the senior member of the firm of Porter, Coates & Co., book publishers, of Philadelphia. Four years ago Mr. Porter retired from business.

### May Have Gone Over Niagara Falls.

Jamestown, N. Y., Oct. 23.—J. C. Richardson, a prominent citizen of North East, is missing. A few days ago he went to Niagara Falls, and while there wrote to friends in this city that he intended to commit suicide by going over the Falls. As he has not been seen since, it is thought he has carried out his threat. Mr. Richardson had been in ill-health for some time.

### Two More Victims of Explosion.

Nyack, N. Y., Oct. 23.—John Somolone, leaving a widow and three children, and John Scronick, leaving a widow and three children, died at Rockland Lake as the result of the powder explosion at the stone crushing works of Foss & Conklin. This makes eight victims in all, and one or two more may die.

### American Consul Married.

Fort Wayne, Ind., Oct. 23.—Relative here received notice of the marriage on Oct. 8, at Bournabar, of United States Consul Rufus Walt Lane of Smyrna to Miss Marie, a Greek girl, a daughter of Mrs. John Paachi. The Consul is a graduate of Earlham College and was the Cincinnati member of the Ohio Legislature who cast the vote which elected Mark Hanna to the Senate.

## ASK YOUR NEIGHBOR.

### Hundreds of Portsmouth Citizens Can Tell You All About It.

Home endorsements, the public expression of Portsmouth people, should be evidence beyond dispute for every Portsmouth reader.

Merely the experience of friends and neighbors, cheerfully given by them, will carry more weight than the utterances of strangers residing in faraway places. Read the following:

Mr. William Bell of No. 2 Hill street, says: "I used Doan's Kidney Pills and sold my husband. Both of us received great benefit from them, and we unite in recommending them to others. We read about them in the newspapers, and as we were both suffering at the same time, we got a box at Philbrick pharmacy on Congress street. I was troubled with a grinding pain in my back, dizziness and distress in my head, and lameness in my kidneys. My husband had lameness in the back and the secretions from the kidneys acted too frequently, particularly at night, which greatly disturbed his rest. We commenced using them together and it was not long before the desired result took place."

## RUBBER SHOES.

### More Than One Thousand Kinds Manufactured—Many Exported.

American rubber shoes have been exported to some extent for many years, but within the past four or five years the exports have been multiplied. This has been due to the establishing in foreign countries of agencies of the American manufacturers and to the making of goods to some extent to the demand of Americans abroad for American goods, with the result that wide-awake dealers care to keep them in stock, and largely to the goods themselves, which, like many other American manufactured products, are superior in style, lightness, finish and durability.

Both boots and shoes are exported, but principally shoes; these are exported in every variety for men, women and children. Great numbers of them are made on what is called export lasts, which are made to fit the shoes upon which they are to be worn; but there are also exported many shoes in the same style as those worn in this country. Many American shoes are now exported, and this has helped the export of rubbers in American styles to fit the shoes. It would be quite possible nowadays to buy in London, say, or in Constantinople, American rubbers of the same light weights and graceful shapes as are to be found in New York. Perhaps 40 per cent of the rubber shoes now sold in Europe, outside of Russia, are of American manufacture, and that proportion is increasing.

Even in this country the sale of rubber shoes has increased greatly in comparatively recent years, owing not alone to the increased population, but to the more and more common use of rubbers, and to the introduction of new kinds and styles. And it is a common thing nowadays for persons to own more than one pair of rubber overshoes; as, perhaps, a pair of ordinary rubber shoes, and a pair of articles, in some one of the various forms in which the overshoes are now made, and some people have more than two pairs of rubbers, having for instance rubbers to fit different shoes.

In their different kinds, styles and sizes, American rubber shoes are now made in more than a thousand varieties. There are none of them like the clumsy shoes of olden times; they are all lighter and sligher, and vastly better adapted to their uses; and there are many of them, among those made for women's wear, that are quite thoroughly graceful in design and artistic.

Rubber shoes are made suited to the market in various parts of the country, fitted to the shapes and styles of the shoes there worn, and rubbers suited to one part of the country might not be so useful in another. There are overshoes made for special uses; as, for instance, there is an arctic overshoe made especially for the Northwestern lumbermen, which he puts on and wears over the foot of a high felt boot. There are overshoes that sell well in some localities, but not at all in others; as, for instance, there is an arctic overshoe made high on the ankle that for years has found favor in Boston, but not in New York, though the indications now are that it may come into vogue here.

It is an interesting fact that women's rubbers, until within two or three years, made on straight lasts, are now almost all of them, as men's rubber shoes have been for many years, made in rights and lefts.

The parts of the earth in which rubbers in one form and another are commonly sold are those that lie in temperate and in colder climates, where they have rain, slush and snow and ice.

### Remembrance Urged in a Day.

Here are some official statistics to prove that a bombardment is not such a terrible thing after all. In 1870-71 the bombardment of Belfort lasted seventy-three days, during which 99,453 projectiles fell within the city, and there were but sixty victims killed or fatally wounded. At Strasburg, during the siege of thirty-eight days, the Germans fired upon the city, mostly at close range, 193,722 shells, with a record of only 300 victims. Finally, at Paris, where the bombardment lasted only twenty-three days, 10,000 siege shells were thrown, killing and wounding 107 persons.

## ANOTHER BIG FIGHT.

### AND THE BRITISH ARE THE VICTORS.

War Office in London Posts a Bulletin from Gen. Archibald Hunter—White and His Forces Remain to Defend Ladysmith—The Camp and Equipment Captured.

Cape Town, Oct. 23.—A despatch has just arrived announcing that the Boers are shelling Dundee, east of Glencoe, at long range, but that their fire is ineffective.

Another report from Glencoe says that the Boer force under Commandant General Joubert has attacked, and is about to attack, the British entrenched positions at Glencoe.

London, Oct. 23.—According to a special despatch from Glencoe Camp, the British cavalry, while pursuing the defeated Boers, were engaged by a strong force of the enemy on the main north road. Firing now is in progress.

It is believed that the railway between Ladysmith and Glencoe has been repaired.

The latest despatch from Cape Town says:

"It is now known definitely that Glencoe was attacked by the Boer main northern column. Our forces are entrenched in a good position."

Cape Town, Oct. 23.—Generals White and French have carried the Boer position at Elandslaagte.

This town is about half way between Ladysmith and Glencoe, the scene of Friday's battle.

Ladysmith, Oct. 22.—General White and his forces left here for Elandslaagte and two hours later the force under command of General French started for Madder's Bridge by road and rail. By 2 o'clock in the afternoon General White's command was strengthened to the following total: Fifth Lancers, a squadron of the Fifth Dragoon Guards, a field battery, the Devonshire regiment, half the Manchester regiment, half the Gordon Highlanders, the Imperial Light Horse and two squadrons of Natal volunteers.

"I remain here in defense of Ladysmith with the Gloucester regiment, half the Manchester, half the Gordon Highlanders, a mountain battery and 300 Natal volunteers."

"I learn by telephone from an armored train a mile this side of Elandslaagte that at 5 p. m. the enemy's three guns were silenced and that our infantry were about to charge. The enemy's number this morning was estimated at 1,000, and another 1,000 is expected to arrive during the afternoon."

General Ian H. M. Kock, the second in command in the Transvaal army, was wounded and captured and afterward died. Piet Joubert, a nephew of Commandant General Joubert, was also wounded and captured. The British losses were about 150 in killed and wounded.

### A Surprise To The English.

London, Oct. 23.—The inevitable is happening in South Africa more speedily than the English themselves expected. The details arriving of Saturday's dearly bought victory show that the Boer defeat was crushing, and for ordinary troops, would be almost decisive. It is impossible, however, to estimate intelligently the effect of the severe reverse upon the Boers, for it is a new experience for them. The simultaneous checks at Mafeking and Glencoe by forces much smaller than their own, cannot fail to modify seriously their plan of campaign. It is fully expected in this country that the Boers will now concentrate all their efforts against Kimberley, with the possible capture of Cecil Rhodes as the chief incentive. There is no doubt that every Boer in the two republics will do and dare more to accomplish this than all other objects combined, and if perchance they should succeed it is safe to say that the life of the famous prisoner would speedily be forfeited.

There is no longer much mystery about the British plans. In general the instructions to the forces in Natal and at Kimberley and Mafeking are to hold their own defensively until the arrival of Gen. Buller's army corps. Gen. Sir George Stewart White in Natal will probably receive wide discretion as to what extent to follow up Saturday's victory. At last accounts his cavalry was still pursuing the Boers, but it would appear foolhardy for him to risk a dash into the Transvaal with his present force. The bold commander might try to run into Pretoria, itself on the heels of the panic-stricken enemy, but the whole British policy in this campaign is slow and sure, and the failure of a brilliant attempt would be a disgrace.

It should be remembered also that only our version of Saturday's battle has been received and it is meagre. There is no reason to doubt the fact of the Boer defeat, but the intimation that the Boers lacked courage and marksmanship should be received with great reserve. A striking feature of the battle, which above all else impresses the English public, is the high proportion of casualties among British officers. This is explained not only by the intelligent and skillful shooting by the Boer riflemen, but also by the reckless courage of the victims. It has been freely prophesied that when hostilities began the casualties among the British officers would be appalling. The keenness to win distinction and promotion, particularly among the young officers is so great, that it outruns discretion.

### Children Found Father Dead.

Jamestown, N. Y., Oct. 23.—Howard Hobson, a widower, aged 44 years, living near Mayville, committed suicide. Hobson kept house for his two children and sent them to school. On their return home they found their father hanging in the woods. He had been despondent since his wife died about a year ago.

## THE BIG FIGHT.

### Sharkey Takes Things Easy—Jeffries Works Hard.

New York, Oct. 23.—Having removed every ounce of superfluous flesh from his body and reduced himself to 185 pounds, his best fighting weight, "Tom" Sharkey, who is matched to fight James J. Jeffries for the heavyweight championship of the world at Coney Island on November 3, will now take mild training exercise for the battle. Beginning to-day, he will devote his time almost exclusively to road work. Rough boxing and wrestling, so conspicuous in his programme of daily exercises at his training quarters at New Dorp, S. I., will be dispensed with. The only sparring he will do will be of the mildest possible character. The sailor is now on edge for the contest, and as violent exercise might do him more harm than good Sharkey has decided to take things very easy. He is as strong as a horse and his muscles stand out like whipcords.

Jeffries, whose preparation for the contest has suffered considerably in consequence of the injury to his left arm has got to make up for lost time. His final training will be the opposite of Sharkey's. He will work harder than ever from now until he enters the ring. Vigorous boxing bouts with "Tommy" Ryan, spirited contests on the mat with Ernest Roeber, rowing matches on De La Lake and plenty of road work will mark Jeffries' efforts to get into proper shape. The champion intends to weigh considerably less when he fights Sharkey than when he fought Fitzsimmons. Betting on the fight is now becoming interesting. Last night "Markie" Mayer bet "Mike" Downing \$1,000 to \$700 that Jeffries would win.

### USED BABY FOR A SHIELD.

#### Georgia Murderer Tries Novel Means Of Jail Breaking.

Atlanta, Ga., Oct. 23.—Edward C. Flanagan, the De Kalb County murderer, broke from his cell in the jail here. As he dashed through the door and past the guard, who had the murderer's breakfast in his hand, he snatched up the baby of Sheriff Talley. Drawing a long knife from his sleeve, and clashing the child to his breast, the prisoner fled down the jail stairway toward the street and prison library.

Down one flight of steps and then through a corridor leading to the Sheriff's house, the only avenue of escape from the prison, Flanagan sped, holding the screaming child in his left arm and brandishing his knife in his right hand.

Sheriff Talley happened to be in the room into which Flanagan dashed. Mrs. Talley, the child's mother, also was there. The father and mother simultaneously sprang upon the prisoner. Mrs. Talley wielding a broom and the Sheriff clutching Flanagan by the neck. The guard came up at this instant and the three overpowered Flanagan and took the child from him. The Sheriff then drove him back up the steps and into the cell at the point of his pistol.

Flanagan has been confined in the jail here since last February, awaiting a new trial on the charge of murdering Miss Ruth Slack and Mrs. Dixon Hall, attempting to murder Mrs. George Allen and inflicting injuries on her father, Dixon Allen, from which he afterward died. He had been sentenced to be hanged, but on a plea of lunacy he has been allowed several trials.

### A Bicycle Record.

New York, Oct. 23.—"Will" Brown, an amateur of the Nassau Wheelmen and Century Road Club, completed his one-thousand-mile record at Valley Stream, L. I., in good condition. He had then been at his task for eight-and-a-half hours, four and one-half minutes, and had beaten "Red" Hoffa's amateur record by more than twenty-five hours, and G. C. Riviere's professional record by more than seven hours. His performance was one of the most notable in the history of cycling. Brown began his ride on the Century Road Club's twenty-mile triangular course in Long Island and was off his wheel only eleven hours and forty minutes in all, and his total sleep, taken in three sections, was six hours and forty-five minutes, his only ailment being a bruised knee, received in a fall over a dog on his first night out.

### Captain Dreyfus Gaining in Health.

Paris, Oct. 23.—Ex-Capt. Dreyfus is steadily improving in health at his resting place in Carpentras. He is anxious that future efforts for his complete rehabilitation shall be made with the utmost reserve. He is opposed to anything in the nature of a "fresh campaign," but his leading supporters may decide that it is necessary in his own interests to resume an agitation without which, they argue, he is still the same Devil's Isle Dreyfus, however greatly he may prefer quiet and peaceful methods.

### Peanut Whistle Lands Him in Jail.

Topeka, Kan., Oct. 23.—Lewis W. Jharochas, a Greek, has caused nervous people of Topeka no end of worry by allowing a steam peanut whistle to sing away from morning till night, in front of his place of business. He went to jail for the third time because of this nuisance, but he insisted on leaving his steam kettle running at full speed.

### Horace L. Hastings Dead.

Goshen, Mass., Oct. 23.—Horace L. Hastings, editor and publisher of the Christian for more than thirty years, died at his home here of typhoid fever. Mr. Hastings was born Nov. 26, 1831, in Watertown, Mass. He was the author of many books, tracts and pamphlets known as the Anti-Infidel Library.

### Say It Was Not Bubonic Plague.

Rio Janeiro, Oct. 23.—In the last ten days nine cases of suspicious illness, three of which resulted fatally, have been reported at Samoa. It is the opinion, however, of most of the doctors that the patients were not victims of the bubonic plague.

### Collapse of Hospital Kills Four.

Havana, Oct. 23.—The hospital in Sagua la Grande collapsed, having been undermined by roots from the recent heavy rains. Of the forty-two inmates four were killed and twenty-seven injured.

TUESDAY, OCT. 24, 1899.

The cup is nailed down.

That was a hot affair at Glencoe.

The class in South African geography will now stand up.

Mr. Bryan is losing strength and making money. He's all right.

The yacht races were satisfactory all round. A fairer trial was not possible. The argument was conclusive.

What the yachting experts don't know about yachts would supply a landlubber for a number of years.

The people of the British empire are now as one man for "St. George and Merry England!" There is no fire in the rear.

Give Mr. Hanna credit for one thing. He hasn't claimed that he whipped Cervera or wrote a come-down letter to General Toral.

Oom Paul is not issuing proclamations assuring his people that the British troops will be withdrawn after the next election in England.

The familiar line, "Delayed in Transmission," appears in the war news from Africa. The Mole St. Nicholas has probably show up before long.

Experience is the only teacher, and it is teaching the Boers a sad and costly lesson. Oom Paul's hard headed countrymen were led astray by their victory at Majuba hill some years ago.

Erving Winslow regards the demonstration in Admiral Dewey's honor as no more than "the natural outcome of the intoxication produced by the military spirit." Erving better take a drink himself.

Owing to previous and pressing engagements in the island of Luzon, Gen. Emilio Aguinaldo will not be able to take part in the democratic campaign in the United States this fall. He has shown, however, that his heart beats warmly for the old party and its nominees.

Kentucky experts agree that the campaign in that state has thus far been desperately monotonous, not more than half a dozen men having been killed since the exercises began. There is some uncertainty as to whether the Blue Grass commonwealth is trying to live up to her reputation or down from it.

### A REPETITION OF HISTORY.

It is a great comfort to reflect that all Americans a score of years hence will view our acquisition of the Philippines as complacently as they now regard the Louisiana purchase. It enables one to listen to the voice of the "non-expansion crew" with a patience approaching good humor. If there had never been a Louisiana purchase, or an Alaska purchase, or a Texas conquest, if there had not been noisy statesmen before Agassimon Mason, we might, taking note of the imposing hot-air furnaces in public life today, have some doubts as to whether the nation were now on the right track. As it is we are serenely confident. We can believe, with the president, that the nation's new possessions will be retained under the benign sovereignty of the United States, and that they will prove a rich and invaluable heritage. Meantime let us be patient with the successors of the early "annexers," and remember that it takes all kinds of people to make a world.

Owners still return with small bags of game and some say that about the worst thing in the state is a squirrel. There are few birds as well and little sporty game.

### INSURGENTS TROUBLESOME.

MANILA, Oct. 23.—The insurgents at Calamba and Angeles have bothered the Americans lately with repeated attacks. Major Chestnut, with a battalion of the Thirty-seventh infantry and some other organizations, drove the Philippines from their trenches at Calamba, pursuing them three miles, inflicting heavy loss. Four men from a small American gunboat were lured ashore near Iloilo by a flag of truce and the Philippines killed one, wounded another and captured two. The gunboat was unable to fire for fear of wounding or killing the Americans.

### MEAGRE NEWS FROM GLENCOE.

LONDON, Oct. 23.—A despatch from Ladysmith, Natal, dated yesterday afternoon, has just been received and is a repetition of other despatches from Glencoe and is regarded as rather ominous, as nothing has been heard from Glencoe for twenty-four hours. Later, however, a despatch was received from Ladysmith dated today, which says that General Buller has telegraphed that the wounded at Dundee are doing well. This later despatch relieves the anxiety in regard to Glencoe and it is believed the British have not been attacked at that point as yet.

### TO AGAIN ATTACK GLENCOE.

LONDON, Oct. 23.—The Daily Telegraph has received a despatch from Ladysmith, dated Sunday afternoon, stating that the Boers, 9000 strong, under command of General Joubert and President Kruger in person, are to again attack Glencoe. The correspondent of the Daily Mail says that Cecil Rhodes sent a despatch from Kimberley Oct. 19th declaring that there was speedy need of reinforcements, the place being surrounded by Boers.

### ORDERED TO THE TRANSVAAL.

WASHINGTON, Oct. 23.—Col. Sumner, military attaché at London; Major Strong, now stationed at Governor's island; Captain Gibson of the ordnance department and Captain Slocum, attaché at Lisbon, have been ordered to the Transvaal to witness operations.

### SITUATION IS GRAVE.

LONDON, Oct. 23.—A despatch to the Times from Cape Town says the situation today is very grave. The Boers, who are now 350 strong, will be reinforced. No defense is possible. The town guard will have to retire on the appearance of the enemy.

### SOURCE OF GREAT SATISFACTION.

CAPE TOWN, Oct. 23.—The capture of General Ben Viljoen is a source of great satisfaction to the Uitlanders, as he has been instrumental in inciting the Dutch colonists to rebellion.

### TO RUN DAY AND NIGHT.

DOVER, N. H., Oct. 23.—The Cocheco cotton mills No. 1, beginning today, will run day and night for two weeks. The printers' strike at the Cocheco print works is still on, with no prospect of a settlement. The company, as far as can be learned, is not seriously handicapped and is running in full.

### FELL SHORT.

BATH, ME., Oct. 23.—The torpedo boat Dahlgren made part of her official speed trial today. The maximum speed attained was 29.49. She did not reach her highest revolution and a further test will be made tomorrow. She is required to make thirty and a quarter knots.

### ROBBED IN LONDON.

LONDON, Oct. 23.—A sensational burglary took place at the Savoy hotel yesterday. The rooms of Mrs. Stockwell of New York were entered and jewelry to the value of £10,000 and bank notes to the value of £5000 were stolen.

### LOCAL STORIES.

The force of childhood recollections and the truth of the quotation, "A touch of nature makes the whole world kin," were shown graphically by a little incident in a Congress street restaurant the other day. A quiet looking middle-aged man of prosperous appearance was eating his dinner when another well-dressed man took a seat opposite him. After giving his order in a bluff, genial manner, the newcomer took a sip of water and faced around. Suddenly a queer expression came over his face as he watched attentively the actions of his vis-a-vis, and apparently without realizing what he was doing he blurted out in a loud tone: "Well, well, well." Every one at the table, including the quiet looking man, started and the others, observing the direction of the speaker's gaze, turned their eyes also upon him of the quiet appearance, to see what had caused the exclamation. The man who had come in first was in the act of spreading sugar over a slice of buttered bread, and when he realized that all eyes were turned upon him he blushed like one detected in a heinous crime and almost fell off his chair. It took him a minute or two to recover, and then he said to the table in general: "I used to get bread and butter and sugar for being good when I was a child, and eating it is a habit which I like to indulge in even yet. I know it isn't on the restaurant bill of fare, but I couldn't resist the temptation." "I must beg your pardon for my rude exclamation," replied the other man. "My mother used to put bread and butter and sugar in my lunch box when I went to school as an 8-year old up in the country town where I was raised, and I haven't eaten any since my childhood. I guess I'll join you in a piece now for the sake of old times." And he did.

### "JULE" WILL FIX IT UP.

The final adjustment of the Philippine question is perhaps much nearer at hand than the general public is aware of. Gen. Battles received yesterday a postal card from Julian Trask, mailed at Hong Kong, China, on Sept. 9th, on which Jules states that he had seen Hobson and would leave the same day for Manila.—Concord People and Patriot.

### NO ONE WOULD EVER BE BOTHERED WITH CONSTIPATION IF EVERYONE KNEW HOW NATURALLY AND QUICKLY BURDOCK BLOOD PURIFIER REGULATES THE STOMACH AND BOWELS.

### DREAMS MAKE ONE FAT.

Nervous or Mental Maladies Cured by The

An English physician claims to have discovered a new and efficacious cure for persons afflicted with nervous or mental maladies. If such persons, he says, can only procure pleasant dreams, they will soon regain their health, and his aim is, therefore, to furnish them with delightful dreams.

For this purpose he uses a soft leather cap, which covers the patient's head and ears, and leaves only the face uncovered. Beside the ears are placed two metal plates, which are joined by a rubber tube to a phonograph. The patient rests on a divan in a dark room and in front of him is a sort of magic lantern, from which are projected at brief intervals various enjoyable pictures. In this way, it is claimed, the eyes of the sick person are delighted, while at the same time his ears are soothed by the vibrations of the phonograph.

As a result, weariness comes upon him and is soon followed by slumber, and it is while he is dozing in this manner that happy dreams are evoked, thanks to the phonograph and the stereoscopic. After this light slumber comes a deep sleep, which, we are assured, is always most beneficial.

Several tests of this kind have been made with success, and it is said that not only are tired nerves refreshed by this method, but that the patient's body also rapidly increases in weight. That pleasant sounds and sights are soothing to the nerves we have all known for a long time, but that pleasant dreams have a tendency to make persons fat will certainly be news to the general public.—Exchange.

### SMOKING IN COREA.

In Corea all men and women smoke. They begin early. The pipe is a brass bowl, with a reed stem four feet long and a brass, amber or glass mouthpiece. Accidents often occur from persons falling with a long pipe in the mouth, the stem of which is driven down the throat, through the cheek, or into the palate. During the "reform period," after the Japan-China war, long pipes were forbidden to the common people, and they turned to cigarettes, which have become rooted in the popular affection. Native cigarettes, which are of poor quality, sell for one cent gold for twenty. Little cigars of cigarette size sell for 14 cents gold per 100. American cigarettes are used exclusively in the palace, and thousands of them are smoked there. This makes them popular with the upper classes, and the consumption of them is very great. The best of them cost one cent gold each. The import duty on cigars and cigarettes is 20 per cent, ad valorem, but, in spite of this, the American manufacturers are gradually coming into control of the market.

### THE FIRST INTERVIEW.

It is said of the Aberdeen Journal, which has recently celebrated its 150th birthday, that in one of its earliest numbers, now unhappily lost from the files, a participant in the battle of Culloden was interviewed two days after that historic combat. It was about the earliest newspaper interview on record.

## THE HERALD.

TUESDAY, OCT. 24, 1899.

Y. M. C. A.

The board of directors of the Young  
Men's Christian association held their  
monthly meeting at the building on  
Monday evening.

Classes in carpentry and mechanical  
drawing will be started in November  
and others will probably follow.

The bible school commenced on  
Thursday with good enrollment.

The boys' brigade starts soon and  
will follow the usual lines.

The women's auxiliary will assist this  
year, as usual, their first entertainment  
coming Oct. 30th.

The financial committee will soon  
commence their canvass for the needed  
funds for current expenses.

### BOUGHT HIM, PROBABLY.

Harry M. Bigelow of the Portland  
Press and Tobias A. Burke, of the Ar-  
gus, two of the best known, popular and  
most capable of the newspaper men of  
that city, returned on Wednesday from  
a week's hunting trip in the eastern part  
of the state. They caught a deer be-  
tween them, but nobody knows which  
one of the scribblers managed to fell  
the king of the forest. Mr. Burke is a  
Portsmouth boy, the son of Tobias E.  
Burke of Pleasant street.

### RECITED DUNBAR'S POEMS.

Rev. W. W. Lucas, the colored orator,  
recited from the works of Paul Law-  
rence Dunbar, in the Methodist vestry  
Monday evening. So large was the  
audience that not all could find seats or  
standing room, either.

Mr. Lucas was happy in his selections  
from Mr. Dunbar's poems, and his  
dialect rendition was of course faithful.  
The recitals were all very entertaining.

### BREAKWATERS COMPLETED.

The new breakwaters at Hampton  
beach have been completed and cer-  
tainly reflect great credit upon Engineer  
Ross who was in charge. One was the  
repair and extension of the breakwaters  
at the Logs, so called. The other is be-  
fore the Sea View house where, through  
the pounding of the Gledon wreck,  
huge branches had been made in the  
beach hill.

### PORTSMOUTH SCHOONER ASHORE.

The schooner Jenny Greenbank of  
this city, Captain Frisbee, bound from  
Perth Amboy for Exeter, coal laden,  
struck on Chatham bar at two o'clock  
Monday morning. The vessel was  
boarded by the Chatham Old Harbor  
life-saving crew, who, together with  
wreckers, will endeavor to float her.

### ORGANIZED IN KITTERY.

The Day State Supply Co., organized  
at Kittery for the purpose of dealing in  
oils, greases and engineers' supplies,  
with \$50,000 capital stock, of which  
nothing is paid in. The officers are:  
President, H. L. Rowell of Melrose,  
Mass.; treasurer, Geo. H. Marston of  
Newburyport, Mass. Certificate ap-  
proved Oct. 18th, 1899.

### SOCIAL ASSEMBLY.

The first in the series of private as-  
semblies to be given in Conservatory  
hall this fall and winter, was held on  
Monday evening and proved a most en-  
joyable time. Conservatory orchestra  
furnished music and Ralph Green cat-  
tered. The next in the series will be  
given November 6th.

### DOCK CONTRACTORS AT NAVY YARD.

The men representing John Pierce of  
New York, contractor for the new dry  
dock at the navy yard, inspected the  
site on Monday in company with Capt.  
P. F. Harrington, and Civil Engineer  
Gregory. Plans were laid out for the com-  
mencement of work at an early date.

### A VALUABLE TIMBER LOT.

Work is reported to have been begun  
on the fine timber lot in North Hampton  
which Francis K. Drake recently sold to  
Edward Perkins of Newburyport. This  
is said to be one of the finest lots in the  
county and contains one million and a  
quarter feet.

## SUPREME COURT.

At Monday afternoon's session, in the  
case of Mrs. Julia Francis of Derry, for  
keeping lager for sale, the jury returned  
a verdict of guilty.

The civil action of A. L. Demarrit of  
Northwood vs. C. L. and W. B. Nichols  
of Exeter and Charles Otis of Dover  
trustee, was taken from the jury and  
settled by Judge Parsons.

This morning, the case of Reilly vs.  
Poore was called, and a jury empan-  
nelled. This suit grew out of trouble that  
occurred on a Boston and Maine ex-  
cursion train running between Portsmouth  
and Fabian's, Oct. 3. The plaintiff al-  
leged that some parties in the rear end  
of the car in which he was riding became  
boisterous and shied a preserved-meat  
jar down the aisle, that the defendant  
struck out a foot and so deflected the  
jar that it struck him (Reilly), in the  
head, cutting quite a gash and bringing  
on acute neuralgia, from which he has  
suffered ever since.

The action is for \$3000 damages.  
Page & Bartlett are Reilly's lawyers,  
while J. S. H. Frink and G. T. Bartlett of  
Raymond conduct the defense.

Two of the prominent witnesses for  
the prosecution were Dr. John J. Berry  
and Mrs. S. F. A. Pickering.

The prosecution rested at 12 o'clock,  
but the defense did not have its evidence  
all in at 2:30.

The plaintiff, Edward F. Reilly, is a  
Boston trader in woollens. The defend-  
ant, Benjamin F. Poore, is a well-  
known citizen of Raymond.

The "Scotty" Ooye case, which will  
probably prove as interesting a case as  
any on the docket, did not come up to-  
day. It will be called tomorrow.  
Coyne and his counsel were at the  
court house today.

### ONCE A MARINE HERE.

Says a Boston despatch of Monday:  
"John H. Kelley, who, by discharge  
papers, was identified as one of Hob-  
son's men on the Merrimac, which was  
sunk in Santiago harbor, was before the  
police court in South Boston today,  
charged with drunkenness. The arrest  
of Kelley was made on Saturday night;  
and was only effected after the officer  
had been engaged in a scuffle for nearly  
half an hour. The judge sentenced  
him to serve three months in the house  
of correction for drunkenness, and  
three months for assault on the officer."

Kelley was formerly at the marine  
barracks here. He has been in the lo-  
cal police court a number of times.

### HE WANTED TO FIGHT.

A High school boy trying to appear  
"tuff" dared a companion to fight, while  
they were going down Pleasant street  
below the police station this afternoon.  
"Come round into the back street and  
we'll have it out," cried this youthful  
Sbarkey.

His loud talk attracted a crowd of at-  
torneys and other court attendants who  
were on their way to the court house.

The tough pupil kept up his chal-  
lenge all the way down the street, but  
the other lad refused to agree to any al-  
ley meeting.

### WENT TO JAIL.

"Dr." Perkins, who was arrested at  
Cape Neddick Monday for the larceny  
of a winter overcoat belonging to Har-  
lan Knight of Kittery and about five  
dollars in money, which was in one of  
the pockets, was taken before Judge  
Putnam of York Monday afternoon and  
held in \$400 bonds for appearance at the  
January term of the York county su-  
preme court. In default he was com-  
mitted to Alfred jail. At Cape Neddick  
he was going under the name of Dr.  
Kimball.

### CHALLENGES THE WINNER.

Peter Brooks, the amateur champion  
115-pound boxer of New England, chal-  
lenges the winner of the Lewis-Sullivan  
go, which takes place next week in this  
city. Lewis belongs in Haverhill, while  
Sullivan is a Lawrence lad.

Another man who will be at the ring-  
side to place a \$50 forfeit with the win-  
ner of the bout is Herbert Wilcox of  
Amesbury who acts for Jim Cameron of  
Lynn who is one of the best little men  
in Massachusetts.

### BIG GAME.

In the express car of the 7:30 "Yan-  
kee" from Portland, Monday evening,  
were 68 deer and eight moose, all on  
the way to Boston and New York. This  
big lot of game came from the Maine  
lake region, and is about as large a  
number of deer and moose as has ever  
passed through here.

### ARRESTED FOR SWEARING.

Timothy Kiley was arrested today for  
using profane language on one of the  
loop-line trolley cars. Motorman Se-  
avey made the complaint. The officials  
of the road propose to prosecute all of-  
fenders in this regard.

Never before was it so hard to get

Wheat has gone up a trifle, and it is  
expected that this will soon affect the  
price of flour in the local market, al-  
though at present there has been no  
change.

The seeds on maple trees are said to  
be exceedingly numerous this year.  
This, with the fact that beechnuts and  
other things of the sort are also plenty,  
goes to show that the season has been  
propitious of some good.

It was stated at the police station yester-  
day that the Scotty Coyne case is not  
likely to come up at Portsmouth till to-  
morrow or Wednesday. When called  
the local officers who were present at  
the lake in May will be present to give  
their evidence.—Manchester Paper.

The ladies of Storer Relief Corps will  
hold a Hallow'en party and sale at  
Grand Army hall, Wednesday evening,  
Oct. 25th. Oysters, coffee, ice cream,  
cake, home made candy, aprons, useful  
and fancy articles, will be for sale. A  
Hallow'en entertainment. Admission,  
10 cents.

The slippery leaf is very much in evi-  
dence now that the fall rains have ar-  
rived. There is nothing much more  
slippery on a hard sidewalk on a wet  
day than some of these leaves.

The person who steps upon one of them is  
almost sure of a fall, in case he is not  
prepared previous to making the step.

Those mail clerk badges that have  
been in use a month or more are large  
enough to identify any one. It would  
seem as though the postal department  
could have found a much smaller badge  
that would have answered the same  
purpose of these junks of metal. They  
would make excellent breast pro-  
tectors.

The heating apparatus in those cars  
on the electric railroad is something  
that is very up-to-date. The heat can  
be arranged so that three different  
quantities of electricity can be turned  
on. This not only warms the power,  
but it regulates the heat of the car to  
the degree that it must comfortable to  
the passenger.

### Alving Women Should Weigh.

Women who suffer from all health, female com-  
plaints, or other difficulties, should write to the  
famous physician, Dr. Green of 34 Temple Place,  
Boston, Mass., who is without doubt the most suc-  
cessful woman's physician in the world. He is the  
discoverer of that greatest health-giver Dr. Green's  
Remedy, and he will tell you all about your com-  
plaints, and give you advice and counsel without  
charge, how to be perfectly and permanently cured.  
Drop me a few perfectly free to write confidentially  
to him about your case.

Rev. Dr. Bakel, formerly of this city,  
who for five consecutive years practiced  
medicine at West Derry, but who re-  
cently accepted a position on the staff  
of the Boston Journal, delivered a most  
interesting and profitable address on  
Friday evening before the students of  
the Dartmouth Medical college at Han-  
over. His topic was "The Founding of  
the First Medical Fraternity."

## HORSE NOTES.

The auction month draws near.

The Jones stable is a purely trotting  
one, not a pacer being started in a race  
this season.

But few championship marks were  
shattered in either the trotting or pacing  
divisions this year.

Kilda is eligible to the 2.15 class, al-  
though she has been miles in 2.10 in  
her races. She is untidy, and her  
racing days are over for the present at  
least.

Who Is It, the 4-year-old gray geld-  
ing who raced so well in 1898 out on the  
Pacific coast, did not acclimate really  
first class and was given a short cam-  
paign.

This is a remarkable year for horses  
to reduce their sulky records by going to  
wagon. There seems to be just about  
the right kind of ballast in one of the  
new up to date wagons that helps a horse  
rather than retards him in extreme ef-  
fort.

Tomboy, who was considered out-  
classed and soft hearted at that, earned  
the very nest sum of \$2395, this season,  
and cut her record from 2.12 3/4 to  
2.10 1/2. She won races at Dover and  
Old Orchard. At Readville, in the \$10-  
000 Massachusetts stake, she won two  
heats and was then taken sick. An ex-  
cessive amount of scoring caused her to  
have the thumps.

A turf writer signing himself Ray-  
mond calls Idolita "one of the rankest  
stoppers ever seen in high class com-  
pany." That Raymond is wandering a  
long ways from the truth in making  
this statement is putting it mildly, and  
why he makes it is a mystery. The colt  
did not stop and never faltered. He  
went just as far as muscles in his legs  
would allow him. He was short of work  
and his defeat was due solely to that  
fact. A 3-year-old who can race as well  
as Idolita did in August is game and  
the man who says he is not values the  
truth lightly.

A course of entertainments  
PROMISED.

Prospects are good for a subscription  
course of entertainments at Music hall  
this season under the direction of a  
number of well known society ladies.

A gentleman from Boston was in town  
on Monday to confer with the manager  
of the theatre and the talent will be  
furnished by a well known amusement  
bureau in Boston.

Arrived today: Schooner Henry  
Withington, Captain Stone, from Perth  
Amboy, with 794 tons of coal for J. A.  
& A. W. Walker.

## TO ENFORCE THE LAW.

Pawnbrokers Will Have to be Li-

City Marshal Eastwistle will today  
notify every peddler, pawnbroker and  
dealer in second-hand clothing, old  
metal and junk, that in the future they  
will be required to take out a license to  
do business and also to make a com-  
plete record of all goods bought and  
sold. Marshal Eastwistle in following  
out this plan is not only complying with  
chapter 26 in the city ordinance, but was  
forced to do this on account of the nu-  
merous complaints made lately of petty  
larceny. Small boys have been stealing  
all kinds of metal and old junk and  
would dispose of it to the second-hand  
dealers. In the future the dealers will  
have to make a record of the articles  
with the name of the party who sold  
them, so that it would be an easy matter  
to trace stolen goods.

### "STRONGEST THIS SEASON."

The Portland Express has this to ob-  
serve regarding Saturday's football  
game:

Saturday afternoon the P. A. C. eleven  
defeated the Portsmouth A. C. by a  
score of 17 to 0, in a well played game.  
The visitors are the strongest team seen  
here this season.

The best features of Portsmouth's  
play were the punting of full back  
Dumphy, the strong offensive work of  
Smith at left guard and the line buck-  
ing of Capt. Ira Newick at left half.  
Shaw, a heavy man for end, got down  
the field well under kicks and tackled  
strongly.

Same old song—residents of the su-  
burbs say the springs are all dry and  
the lack of water is a very great hard-  
ship. Would a flood stop this wail?
